

2001-ES SCRUBMASTER

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

A "NEW MILLENNIUM" SOLUTION FOR SCRUBBERS

EFFECTIVE

Reaches into surface pores to emulsify locked-in soils.

ECONOMICAL

Solutions cost pennies per gallon.

FAST

Scrubmaster quickly cleans those "Hard to Clean Floors."

NO RESIDUE

Leaves floors bright and shiny.

SUPER CLEANING POWER — Removes heavy deposits of grease and reaches into the pores and surface irregularities to loosen and emulsify locked-in soils. Even deep-seated stains surrender to Scrubmaster. Faster, more thorough, leaves floors "Kitchen-Clean."

PROTECTS — Quickly converts deep-seated, hard to remove grime into easily removed solution. Scrubmaster does not contain toxic or flammable solvents. Does not leave powdery residues. Will not damage floor seals. Safe on painted, sealed, or composition floors.

SAVE ON LABOR AND MATERIAL COST — "Arm Power" costs more every day. Even the least skilled worker can clean speedily and completely with Scrubmaster.

- **Versatile!**
- **Slash Labor & Material Costs**

RECOMMENDED FOR USE IN —

Processing Plants • Factories • Shops • Aircraft Hangars • Warehouses • Food Processors • Distribution Centers
Manufacturers • Automotive • Truck Service Shops

Sold in 55 Gallon Drums

TECHNICAL DATA

FOREMOST 2001-ES SCRUBMASTER

Rev. 07-06-01

- DESCRIPTION:** A highly concentrated liquid designed especially for use in floor scrubbing machines for cleaning concrete floors and for cleaning and removing wax from composition flooring. Scrubmaster readily liquifies dirt, oil, and grease from concrete floors. It is equally suitable for asphalt, linoleum, vinyl, rubber, asbestos, as well as marble, tile and terrazzo floors. This concentrate contains no acids, abrasives or solvents that would have a harmful effect on the surfaces. It will effectively disperse and deflocculate self-polishing water waxes as well as soils, maintaining them in a dispersed state for ease of removal.
- APPLICATION:** It is adaptable to a wide variety of floor surfaces. When used in floor scrubbing machines, it is recommended for sealed and unsealed concrete floors as well as composition flooring which requires safe and efficient cleaning and removal of water wax.
- DIRECTIONS:** For Cleaning— Dilute one part with 20-40 parts warm water for fast cleaning action. This concentration may be varied to meet individual requirements. For Wax Removal — Dilute approximately 1 part with 20 parts warm water. Apply the solution with a floor scrubbing machine using a suitable brush or scrubbing pad. If desired, allow 10 minutes to soften wax, then remove with a scrubbing pad under the machine.
- PRECAUTIONS:** **KEEP OUT OF REACH OF CHILDREN.** Contains Ethylene Glycol Monobutyl Ether. May cause eye and skin irritation. Avoid contact with eyes and skin. No irritation is likely following short contact periods with human skin. Prolonged and/or repeated exposure may lead to redness, swelling and irritation. Do not take internally.

FIRST AID:

EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get medical attention if burning persists.

SKIN: In case of contact, flush with plenty of water.

INGESTION: Get medical attention.

Before using this product, read the Material Safety Data Sheet (MSDS) for more detailed information regarding safe handling.

FACTS

1. Fast
2. Dual purpose
3. Low sudsing
4. Protects
5. Concentrated
6. Versatile

BENEFITS

1. Digs deep to get at hidden soil, releases stubborn grime, waxes and other finishes
2. Used either as a cleaner or a wax remover by adjusting the concentration
3. No troublesome foam to interfere with cleaning action when used through floor scrubbing machines
4. Protects the floor surfaces as you clean, contains no acids or abrasives
5. No waste of cleaning power, only a small amount required
6. Recommended for any concrete, hard tile, marble and terrazzo; also any composition tile floors
