

3066-ES SHOW-OFF DETERGENT-DEODORIZER

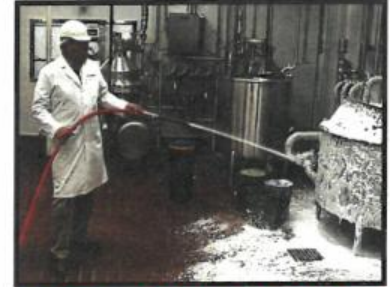

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

KITCHENS

CLEANS

FAST, ES-Extra Special Bursting Formula.

WASTE CONTRACTORS

DEODORIZES

Controls Odors by Eliminating the Source

CLEANING BUILDING TRUSSES

UNSURPASSED FOR:

- Food Processing Plants • Construction
- Nursing Homes • Schools • Hospitals
- Cafeterias • Institutions • Factories
- Country Clubs • Offices • Hotels
- Mortuaries

INSTITUTIONAL

SHOW-OFF CLEANS AND DEODORIZES AT LOW COST

SHOW OFF — removes difficult oily, greasy and grimy contamination and in clear superiority to other cleaners, reacts effectively to remove alkaline, acidic and nonpolar soils.

DIRT OFF— in hot or cold water. Hard water or soft. Chelated to remove build-up of soap scum.

MOLD & MILDEW — Great for treating wooden trusses.

ODOR OFF — No perfume cover-up, SHOW-OFF deodorizes by eliminating the source of odors
Non-flammable, non-toxic, non-caustic, no chlorinated solvents and no pine oil or phenols.

AUTHORIZED BY USDA FOR USE IN FEDERALLY INSPECTED MEAT AND POULTRY PLANTS.

NOTE

The old-fashioned "soap, water and elbow grease" approach to cleaning is expensive and ineffective. Foremost 3066-ES cuts labor costs by cleaning more thoroughly and faster.

CLEANS and DEODORIZES — Garbage cans, kennels, almost anywhere effective one step cleaning and deodorizing is needed.

ADDITIONAL USES — Floors, showers, plastic and color-fast fabrics (rugs, upholstery), dormitories, and restrooms.

TECHNICAL DATA

FOREMOST 3066-ES SHOW-OFF DETERGENT-DEODORIZER

Rev. 9-13-16

DESCRIPTION: A liquid, general purpose cleaner containing deodorizing agents. This product cleans and deodorizes most surfaces in one operation without leaving a soap film or disagreeable odor. It contains high wetting, sequestering and emulsifying properties which loosen, clean and prevent redeposition of soil during the cleaning process.

APPLICATION: It is recommended for use on asphalt, plastic, linoleum, rubber, ceramic tiles, terrazzo and marble floors, woodwork including trusses, painted finishes, walls, glass, food service areas, hospital kitchens, institutional and industrial cafeterias, school lunch rooms, meat and poultry plants, canning plants, dairies and packing plants.

Used for cleaning heavily soiled machinery, equipment, tables, conveyors, floors, exhaust systems, grills, air filters, hoods, etc.

Institutions such as hospitals, schools, municipalities, nursing homes, childrens homes, colleges, clinics, churches, convents, country and athletic clubs, hotels, motels, air lines, bus and railroad terminals find this almost indispensable for daily use.

NOTE: Not recommended for food contact surfaces or finished wood floors.

DIRECTIONS: **FOR GENERAL CLEANING:** Use 2 ounces per gallon of water (1 part to 64 parts of water) warm or hot water is preferable. Apply the solution to the surface by mop, sponge, or spray. Allow the solution to remain on the surface for 10 minutes and then work in by using a scrubbing brush so that accumulated grease and grime can be removed with a squeegee, mop, or sponge. Rinse all treated surfaces and equipment with potable water before reuse.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage and disposal. **STORAGE AND SPILL PROCEDURE:** Store upright at room temperature. Avoid exposure to extreme temperature. In case of spill or leakage, soak up with an absorbent material. Dispose of with chemical waste. **CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or if allowed by state and local authorities, by incineration. If burned, stay out of smoke.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** Causes eye irritation. Do not get in eyes, on skin, or on clothing. Protect eyes and skin when handling product. Avoid contamination of food. Wear goggles or face mask and rubber gloves when handling.

STATEMENT OF PRACTICAL TREATMENT: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of water. Avoid alcohol. Call a physician immediately.
