SAFETY DATA SHEET

1. PRODUCT AND COMPANY IDENTIFICATION

Product Identifier
Product Name: Foremost 4887-ES Misticide
UN/ID No: UN 1950
Product Code: 4887-ES

Recommended Use of the Chemical and Restrictions on Use
Recommended Use: Insecticide.

Details of the Supplier of the Safety Data Sheet
Supplier Address: Delta Foremost Chemical Corporation
3915 Air Park St.
Memphis, Tennessee 38118

Emergency Telephone Number
Company Phone Number: (901) 363-4340
Emergency Telephone: INFOTRAC 1-352-323-3500 (International)
1-800-535-5053 (North America)

2. HAZARDS IDENTIFICATION

Classification

<table>
<thead>
<tr>
<th>Aspiration Hazard</th>
<th>Category 1</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

Signal Word
Danger

Hazard Statements
Keep out of reach of children
Read label and SDS before using
Flammable aerosol
Contains gas under pressure; may explode if heated
May be fatal if swallowed and enters airways
Causes skin and serious eye irritation
Appearance  white liquid  Physical State  Liquid  Odor  Insecticidal

Precautionary Statements - Prevention
Avoid breathing mist or spray.
Wash hands thoroughly after handling.
Wear protective gloves, protective clothing, and eye/face protection.
Contaminated clothing must not be allowed out of the workplace.
Keep away from heat, sparks, open flames, and hot surfaces. No smoking.
Do not spray on an open flame or other ignition source.
Pressurized container: Do not pierce or burn, even after use.

Precautionary Statements - Response
LEAKING GAS FIRE: Do not extinguish unless leak can be stopped safely. Eliminate all ignition sources if safe to do so.
IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting.
IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs, get medical attention. Take off contaminated clothing and wash before reuse.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: get medical attention.

Precautionary Statements - Storage
Store locked up
Protect from sunlight
Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

Hazards Not Otherwise Classified (HNOC)
Defatting to the skin

Product contains a proprietary mixture of ingredients.

4. FIRST AID MEASURES

First Aid Measures

General Advice  DANGER. Flammable. Contents under pressure. Harmful or fatal if swallowed. Aspiration hazard if swallowed. Keep away from heat and flame. Can cause nervous system depression.
### Eye Contact
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing another ten minutes. Get medical attention if irritation persists.

### Skin Contact
Wash skin with soap and plenty of water, while removing contaminated clothing and shoes. Wash items before reuse. If irritation occurs, get medical attention.

### Inhalation
Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing. If symptoms persist, call a physician.

### Ingestion
Harmful or fatal if swallowed. Seek medical attention immediately. Aspiration hazard – this material can enter the lungs during swallowing or vomiting and cause lung inflammation and damage.

## Most Important Symptoms and Effects, both Acute and Delayed

### Symptoms
Aspiration may cause pulmonary edema and pneumonitis.

### Indication of any Immediate Medical Attention and Special Treatment Needed
Note to Physicians
Aspiration into the lungs may occur during ingestion or vomiting, causing lung damage.

## 5. FIRE-FIGHTING MEASURES

**Suitable Extinguishing Media**
Foam, carbon dioxide or dry chemical extinguisher, or water spray (fog). Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Unsuitable Extinguishing Media**
Do not use water jet.

**Specific Hazards Arising from the Chemical**
Flammable aerosol. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of subsequent explosion. Gas may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back, causing fire or explosion. Bursting aerosol containers may be propelled from a fire at high speed. Runoff to sewer may create fire or explosion hazard.

**Hazardous thermal decomposition products**
Carbon dioxide, Carbon monoxide

**Specific fire-fighting methods**
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

**Protective Equipment and Precautions for Firefighters**
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions, Protective Equipment and Emergency Procedures**

### Personal Precautions
Keep unnecessary and unprotected personnel from entering. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

### Methods and Material for Containment and Cleaning Up

### Methods for Containment
Prevent further leakage or spillage if safe to do so. Absorb liquid with sawdust, sand or industrial absorbent. May require excavation of severely contaminated soil. Avoid discharge into drains, water courses, or onto the ground.
Methods for Cleaning Up

Sweep up absorbed material and shovel into suitable containers for disposal. Discard any product, residue, disposable container or liner in full compliance with federal, state, and local regulations. For waste disposal, see section 13 of the SDS.

7. HANDLING AND STORAGE

Precautions for Safe Handling

Advice on Safe Handling

Handle in accordance with good industrial hygiene and safety practice. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not pierce or burn, even after use. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling this product must be grounded. Do not reuse empty containers. Use personal protection recommended in Section 8. Wear eye/face protection. Avoid contact with skin, eyes or clothing. Avoid breathing vapors. Avoid breathing mists. Use only in well-ventilated areas.

Conditions for Safe Storage, Including any Incompatibilities

Storage Conditions

Level 3 aerosol. Keep container tightly closed and store in a cool, dry and well-ventilated place. Keep in properly labeled containers. Store locked up.

Incompatible Materials

Caustic soda, caustic potash, liquid oxygen or other oxidizing materials, alkali metals.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

<table>

</tbody>
</table>

Appropriate Engineering Controls

Engineering Controls

Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the SDS.

Individual Protection Measures, such as Personal Protective Equipment

Eye/Face Protection

Goggles or face shield.

Skin and Body Protection

Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact. Wear protective Neoprene™ gloves, Rubber gloves.

Respiratory Protection

Use self-contained breathing apparatus if there is a heavy vapor about 300 ppm.

General Hygiene Considerations

Handle in accordance with good industrial hygiene and safety practice. Wash hands after use and wash contaminated clothes before reuse.

10. STABILITY AND REACTIVITY

Reactivity
Not expected to be Explosive, Self-Reactive, Self-Heating, or an Organic Peroxide under US GHS Definition(s).

Chemical Stability
Stable under recommended storage conditions.

Possibility of Hazardous Reactions
None under normal processing.

Hazardous Polymerization
Hazardous polymerization does not occur.

Conditions to Avoid
Avoid heat, sparks, open flames and other ignition sources.

Incompatible Materials
Acids and strong oxidizers

Hazardous Decomposition Products
May release COx, smoke, and noxious vapors when heated to decomposition.

11. TOXICOLOGICAL INFORMATION

Information on Likely Routes of Exposure

Product Information

Eye Contact
Causes eye irritation. Symptoms include stinging, tearing, and redness.
Skin Contact
Causes skin irritation. Prolonged contact may dry the skin and cause sensitization. Symptoms may include redness, burning, drying of skin and skin burns.

Inhalation
High vapor or aerosol concentrations are irritating to the eyes and respiratory tract. May cause nose, throat, and respiratory tract irritation, coughing, and headache.

Ingestion
May be harmful or fatal if swallowed. Aspiration hazard – this material can enter the lungs during swallowing or vomiting and cause lung inflammation and damage.

</tbody>
</table>

Information on Physical, Chemical and Toxicological Effects

Symptoms
Please see section 4 of this SDS for symptoms.

Delayed and Immediate Effects as well as Chronic Effects from Short and Long-term Exposure

Germ Cell Mutagenicity
May cause genetic defects.

Carcinogenicity
This material is not listed as a carcinogen by IARC, NTP, or OSHA.

STOT - Single Exposure
Not classified.

Chronic Toxicity
None known.

Aspiration Hazard
May be fatal if swallowed and enters airways.

Numerical Measures of Toxicity
Not determined

12. ECOLOGICAL INFORMATION

Ecotoxicity
This product is toxic to fish and aquatic invertebrates.

Persistence and Degradability
Not determined
Bioaccumulation

Not determined

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes
Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated Packaging
Disposal should be in accordance with applicable regional, national and local laws and regulations.

14. TRANSPORT INFORMATION

Note
Please see current shipping paper for most up to date shipping information, including exemptions and special circumstances.

Other Federal Regulations

FIFRA information
This chemical is a pesticide registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

Signal word: Caution

Precautionary statement: Causes moderate eye irritation. Harmful if absorbed through the skin, swallowed, or inhaled.
