

741-ES SUPER BRITE

SPECIALTIES FOR MAINTENANCE AND SANITATION SINCE 1947

Before and After — Compare the difference
Simply spray on — no wiping needed.

A Revolutionary Breakthrough!

Delta Foremost brings to you the next generation of tire dressing!

Absolutely 100% Silicone-Free!

Use around your painting operations. No need to worry about silicone contamination or the fish-eye problems that it causes.

Super Brite is easily dispensed through the FM 8350 2-Quart Pump-Up Sprayer

MAKES TIRES SPARKLE LIKE NEW!

Our proprietary technology creates a non-silicone tire dressing that actually achieves greater performance than silicone itself.

Just spray on—no wiping or spreading required! As if by magic, Super Brite spreads and self levels to coat the entire surface of the tire. . . a big time saver.

Spray on one coat for a great shine, two coats for a long lasting durable finish.

Don't be fooled by inferior imitations! Only Delta Foremost Super Brite has GLOSSTEX—our unique blend of ingredients that can impart a deep wet shine to your tires without the numerous drawbacks of a silicone-based product.

— NOTE —

This unique rubber dressing, adds sales appeal to used cars, used tires, or your customers' wash jobs.

Super Brite is also fantastic on:

- rubber
- vinyl
- leather
- formica

TECHNICAL DATA

FOREMOST 741-ES Super Brite

Rev. 2-3-16

DESCRIPTION: A unique, non-silicone, liquid rubber dressing designed to bring out a new look in tires and other surfaces. It is natural, economical, quick drying and dependable to use. Natural color and a high gloss are restored to tires without imparting artificial color. Forms a temporary coating which should last approximately as long as the life of a wash job, or until prolonged exposure to wet conditions.

DIRECTIONS: Product is ready to use straight from the container.

FOR TIRES: Apply to tires preferably by spraying. Can also wipe on with a cloth. Product will spread and self level over the surface of the tire without wiping. Excess product can be wiped off.

FOR OTHER SURFACES (rubber, vinyl, leather, formica, etc.): Again, apply by spraying, or can be wiped, on small or fragile objects. Remove excess product if necessary.

NOTE: On any extremely dirty or muddy surfaces, best results will be obtained if they are pre-cleaned to reduce the amount of soil.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** May cause eye and skin irritation. Avoid contact with eyes and prolonged contact with skin. Wash thoroughly after handling. Do not take internally.

FIRST AID: In case of contact with eyes, flush immediately with plenty of water for at least 15 minutes. For skin, flush with plenty of water. Get medical attention if irritation persists. Wash contaminated clothing before reuse. If ingestion occurs, drink two large glasses of water and seek medical attention immediately. Consult a physician about whether to induce vomiting. Do not leave affected individual unattended.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.
