SPECIALTIES FOR MAINTENANCE & SANITATION SINCE 1947

MELT-PELLETS | FM 626

- **MELTS ICE AND SNOW**
- **REPLACES THE COSTLY, BACKBREAKING PICK & SHOVEL APPROACH**
- **EXOTHERMIC ACTION MELTS ICE IN MINUTES.**
- **KEEPS WALKS, STEPS, LOADING DOCKS, RAMPS & DRIVES ICE FREE**

RECOMMENDED FOR

- **INDUSTRIES**
- **MUNICIPALITIES**
- **INSTITUTIONS**
- **BUSINESS FIRMS**
- **AVOIDING RISK OF ACCIDENTS, INJURIES, & COSTLY LAW SUITS**

FAST — Up to 30 times faster than salt at low temperatures. More effective than commercial grade flake calcium chloride.

CONVENIENT — Simply spread with scoop or shovel. Does not leave unsightly residue or track-in under normal application.

ECONOMICAL — Costs much less per pound of ice removed than costly labor.

VERSATILE — Melt Pellets may also be blended with sand or other abrasives for instant skid-proofing. Abrasive mixed with Melt Pellets will spread easier and won't freeze in clumps and piles.

RESIDUAL ACTIVITY — Radiates heat up to 24 hours after application.

NOTE — Authorized by USDA for use in federally inspected meat and poultry plants.

PACKED IN 400 LB. DRUMS

TECHNICAL DATA

FOREMOST 626 MELT-PELLETS

Rev. 12-19-16

DESCRIPTION: A unique pellet concentrated ice melter specifically designed to get rid of snow and ice instantly and completely. It works on the principle of exothermic action and is 30 times more powerful than rock salt at 0°F. It radiates heat up to 24 hours after application. When applied as directed will not pit or discolor good quality concrete, asphalt, rubber tires, metal or carpet.

APPLICATION: Recommended for use by street and highway departments, schools, police departments, hospitals, parking areas, industrial plants, office buildings, fire departments, and any place where ice and snow are hazardous.

DIRECTIONS: The concentrated material is applied with scoop or shovel on snow and ice. It may be blended with sand or other abrasives before it is sprinkled or shoveled on snow or icy areas to reduce skid. Seal tightly after use.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** May cause eye and skin irritation. Avoid contact with eyes and prolonged contact with skin. Wash thoroughly after handling. Do not take internally.

FIRST AID: EYES: In case of contact with eyes, flush immediately with plenty of water for at least 15 minutes. **SKIN:** Flush with plenty of water. Get medical attention if irritation persists. Wash contaminated clothing before reuse.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.

FACTS

1. Fast
2. No residue
3. Protects
4. Versatile

BENEFITS

1. The best ice melter for getting the job done in the shortest time—30 times faster than salt at low temperatures.
2. Leaves no messy white residue to coat sidewalks or be tracked into buildings.
3. No attack to properly cured, good quality concrete.
4. May be blended with sand or cinders for immediate traction and skid-proofing.
