

SPECIALTIES FOR MAINTENANCE
& SANITATION SINCE 1947

LIQUID SNAKE

FM 1664-ES

- INDUSTRIAL STRENGTH
- DISSOLVES & FLUSHES
- NO HARSH FUMES
- NONCORROSIVE TO PLUMBING
- LIQUEFIES ORGANIC BLOCKAGE

RECOMMENDED FOR

- NURSING HOMES
- INDUSTRIAL PLANTS
- MOTELS & RESORTS
- RESTAURANTS
- MUNICIPALITIES
- HOSPITALS & X-RAY LABS
- DORMITORIES
- COUNTRY CLUBS

FAST ACTION — Highly activated, Foremost 1664-ES produces immediate results by dissolving grease, food particles, fats, wax paper, feathers, hair and other organic matter.

HIGHLY EFFECTIVE LIQUID — Flows straight through standing water to the point of obstruction or mixes with backed-up water. Rapidly penetrates and dissolves congestion, resulting in a flowable state.

NONACIDIC / NON FUMING — Safe on plumbing. No acrid or sulfurous odors.

FAST ACTING — Quickly liquifies kitchen solids, greases, and debris flushed into floor drains. Pours through standing water. Quickly dissolves obstruction.

CAUTION — This material is highly alkaline, and care should be used in handling to avoid contact with hands and skin. Product should not be used on aluminum, painted surfaces, or floor coverings.

PACKED IN CASES OF 48 QUARTS

TECHNICAL DATA

FOREMOST 1664-ES LIQUID SNAKE

Rev. 4-8-18

DESCRIPTION: A fast-acting, odorless liquid drain pipe solvent that is ready-to-use, requires no pre-mixing and upon contact with greases, oils, and fats, forms a soluble soft mass that flows through the drain lines without clogging. Its action is highly effective on grease, fat, vegetable oil, rags, matches, paper, hair and other organic matter. Since it is heavier than water it will readily drop below the water level to the point of obstruction and promptly penetrate the congestion, causing it to disintegrate into a flowable condition. This product does not offer the disadvantages of many powdered drain pipe cleaners and is rapidly replacing the older type products. No objectionable odor is generated, yet it works as a powerful, fast-acting laxative to the plumbing system.

APPLICATION:

1. To dissolve black slime in drains in x-ray labs and photo labs.
2. Unclogging grease traps.
3. Washroom drains in factories, schools, institutions, office buildings, etc.
4. Restaurant house drains for dissolving fat, grease and other kitchen debris.

DIRECTIONS: **CLOGGED DRAINS, SINKS, TUBS, WASHBOWLS AND TRAPS:** Pour approximately ½ to 1 pint into drain opening. Do not use drain for a half hour. Give it time to work into the pipe or drain traps. Add a small amount of water if drain boils up. After half an hour, flush with water. If drain or trap is not completely open, repeat treatment.

LARGE FLOOR AND OTHER DRAINS, SEWERS, ETC.: Follow same instructions as above except increase dosage to approximately 1 to 4 quarts depending on the particular requirements.

PREVENTATIVE MAINTENANCE: Use approximately ½ to 1 pint per drain weekly or as often as needed.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** Contains potassium hydroxide. Causes severe burns to eyes or skin. Do not get in eyes, skin, or clothing. Do not take internally. No irritation is likely following short contact periods with human skin. Prolonged and/or repeated exposure may lead to redness, swelling, and irritation. Wash thoroughly after handling. When handling, always wear chemical splash goggles, face shield, rubber gloves and protective clothing.

FIRST AID: EYES AND SKIN: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Destroy contaminated shoes. **INGESTION:** If swallowed do not induce vomiting. If person is conscious, give large quantities of water or milk, if available. Get medical attention immediately.

Before using this product, read the Safety Data Sheet (SDS) for more detailed information regarding safe handling.

FACTS

1. Eliminate the hazards of powders
2. Fast action
3. Pours through standing water
4. Simple to use
5. Less waste

BENEFITS

1. No dissolving problems are encountered with Foremost 1664-ES; no spattering—no boiling—no fuming
2. Foremost 1664-ES is highly concentrated and activated to produce immediate results. Dissolves grease, hair, food particles and many others
3. The liquid form of 1664-ES being heavier than water, flows straight to the point of obstruction where, many times, powder compounds would never reach
4. Already in solution, Foremost 1664-ES is merely added to drain; no water addition required
5. No accumulation of moisture in drums, as is the case in powders. No hardening or solidifying in drums. More economical
